Silicon Valley Billionaires Have Bought The U.S. Patent Office In Order To End American Innovation on behalf of their greed!

In the last two years, the U.S. Patent office has been changed more than in all of American History. The result of these changes is to destroy American innovation in order to buffer up the greed of Silicon Valley Billionaires.

The billionaires don't want to pay inventors. They want to be able to take whatever they want without any consequences.

Silicon Valley Billionaires have bribed elected officials, with "revolving doors", insider-trading stock, campaign funding, junkets, and more..., to change the laws and rules of the U.S. Patent Office.

They disguise the bought-and-paid-for rule/law clamp-down under the cover story of the phrase: "patent reform" and "troll shutdown" but this is just a lobbyist trick of semantics.

They have hired hundreds of east indian IT meat puppets and blogger trolls to seek to tell the public that "patent trolls are bad" because they don't want to pay the rightful inventors of the technologies they use to exploit the public, spy and data-mine citizens.

Demand a roll-back to the rules and regulations that supported inventors, domestic innovation and American growth before they kill off the last great asset of America: It's creativity and innovation!

Send in your links. Let's discuss..

- American Innovators for Patent Reform (AIPR), an industry group representing small patent owners – start-ups, R&D companies, universities and independent inventors – as well as patent practitioners, is opposed to the "Trade Protection Not Troll Protection" bill introduced last month by Rep. Blake Farenthold (R-TX). Please visit <http://www.aminn.org>

Ballabon Will Bring Media, Government Relations and Intellectual Property Expertise to AIPR

American Innovators for Patent Reform (AIPR), an industry group representing small patent owners – start-ups, R&D companies, universities, independent inventors and patent practitioners – has added Jeff Ballabon to its Board of Directors. Mr. Ballabon is a founding partner of B2 Strategic, an influential international consulting firm.

Prior to founding B2 Strategic, Jeff Ballabon was CEO of Innovative Communications Technologies, Inc. where he...

[American Innovators for Patent Reform Opposes Proposed "Trade Protection Not Troll Protection" Act](#)

Date: June 6 2014

Proposed Bill Is Anti-Innovation and Serves Only Special Interest Groups

American Innovators for Patent Reform (AIPR), an industry group representing small patent owners – start-ups, R&D companies, universities and independent inventors – as well as patent practitioners, is opposed to the "Trade Protection Not Troll Protection" bill introduced last month by Rep. Blake Farenthold (R-TX).

"This is yet another misguided 'anti-troll' legislative proposal that misses the point entirely, and shows a fundamental lack of understanding by Rep. Farenthold...

[Opposition Continues to Materialize for Misdirected Patent Legislation](#)

Date: March 19 2014

Two proposed patent bills, H.R. 3309, the "Innovation Act" – that was passed by the House last year, but has not yet been introduced in the Senate – and S. 1720, the "Patent Transparency and Improvements Act" – that has yet to come up for a vote in the Senate – both continue to face opposition from a broad cross section of organizations. These include:

- Licensing Executives Society of the USA and Canada
- Biotechnology Industry Organization
- Federal Circuit Bar Association
- American Intellectual Property Law Association...

[American Innovators for Patent Reform Strongly Condemns the Passage of H.R. 3309](#)

Date: December 6 2013

The So Called "Innovation Act" Is the Worst Anti-Innovation Bill in American History

New York, N.Y. – December 6, 2013 – American Innovators for Patent Reform (AIPR), an industry group representing small patent owners – start-ups, R&D companies, universities and independent inventors – as well as patent practitioners, strongly condemns the passage of H.R. 3309, the so-called Innovation Act, by the House as the most anti-innovation and anti-inventor legislation in American history.

"Our Founding Fathers had the wisdom to lay the foundation of the American patent..."

["Patent Troll" Hypocrisy and a New Patent Reform](#)

Date: December 5 2013

By Alexander Poltorak, Founder and President of American Innovators for Patent Reform

Recently, Rockstar Bidco sued Google and seven other manufacturers of Android smart phones for infringing patents it bought for \$4.5 billion from bankrupt Nortel. A former in-house patent counsel for Intel, Peter Detkin, who coined the term "patent troll," defined it as someone who acquires for the purposes of litigation a patent they did not invent and do not practice. Rockstar seems to be a perfect example of a "patent troll" – they bought the patents they did not invent and do not...

[We Need Patent Reform, Not Patent Deform!](#)

Date: December 4 2013

By Alexander Poltorak, Founder and Chairman of AIPR

We Americans have a love-hate relationship with patents. We can't live with them, and we can't live without them. Everybody wants to reform the patent system. After many years of contentious debate, in 2011, the America Invents Act (AIA) was signed into law. Alas, this Act did not help America to invent anything! Nor was it ever intended to do that. It was pork-belly legislation written by lobbyists on the payroll of Microsoft, Cisco and other tech giants whose only goal was to weaken our patent system by making...

[Law360 - "Lawyers' Voices Needed In Anti-Troll Debate, Judge Says"](#)

Date: October 15 2013

A former chief judge of the Court of Appeals for the Federal Circuit called for attorneys to get more involved in the debate over how to control patent trolls because litigators have an "abysmal" understanding of patent law. Speaking at a forum on nonpracticing entity litigation, Judge Paul Michel said, "Every bar association and IP law association needs to get involved, because that's where the expertise resides."

Alexander Poltorak, Founder and Chairman of American Innovators for Patent Reform as well as Chairman and CEO of General Patent Corporation, also attended the event and...

[Thanks to AIA, the USPTO is Now the Nation's Third-Busiest Patent Venue](#)

Date: September 24 2013

In the past year, the U.S. Patent and Trademark Office received 535 petitions challenging patents under two new America Invents Act (AIA) programs. There were 482 requests for inter partes review (IPR) and 53 for covered business method review (CBM). And the number of filings could double next year, according to an [article](#) on Law360.com (subscription required).

And according to a...

[The Hill - "Inventors deserve equal protection, not double standards"](#)

Date: July 14 2013

Raymond Mercado, a doctoral student in political science at Duke University and the author of "Ensuring the Integrity of Administrative Challenges to Patents: Lessons From Reexamination," forthcoming in the *Columbia Science and Technology LawReview*, penned an op-ed in The Hill's Congress Blog that addresses the danger of putting inventors' rights at risk in the name of quashing "meritless lawsuits." (["Inventors deserve equal protection, not..."](#))

[Wall Street Journal - "Inventors, Trolls, Patents and Improving the System"](#)

Date: June 28 2013

Alexander Poltorak, the Founder and Chairman of American Innovators for Patent Reform, wrote a letter to the editor of the *Wall Street Journal* in response to an op-ed piece by Senator Chuck Schumer. The letter was published June 26, 2013 (see ["Inventors, Trolls, Patents and Improving the System"](#)).

Dr. Poltorak's letter explains why the focus on patent trolls is misdirected. However, only a portion of the original letter was published by the *Journal*. Dr....
