As the story goes, A famous Google executive bet a DNC leader that he could destroy any Senator within 30 days. The DNC leader said: "OK, Do Rick Santorum". Within 30 days, the entire internet search system had listed Rick Santorum as "Anal Sex Butt Froth", from every search result on Earth. Santorum's Congressional staff charged Google with rigging, and locking search engine results but Eric Schmidt publicly stated that "it was not possible for Google to target search engine results". The world now knows that Schmidt lied!
