

DO IT YOURSELF!

A famous bad guy said he was going to "kill me without breaking a single law", I decided I'd better learn how to do that and kill him first...without breaking a single law.

When you tell the police, sheriff, FBI, SEC, etc. about a famous billionaire, senator or White House executive doing crimes, they always tell you: "OK, we will take a look" and then nothing ever happens after that and you get harmed, and harmed and harmed some more because the big crooks always bribe their way out of any and all arrests.

In the 2008 "stimulus" and the 2020 COVID "stimulus" all of the government money went to crooked insiders to be used to pump their stock market holdings, skim banking "fees" off of and perform massive quid pro quo. The individual citizens got nothing from those "stimulus" funds. The money came directly out of their tax-paying pockets. The crooks got trillions of dollars of unjust gains and simply buffered up their anti-trust violating monopolies.

You have to do things yourself if you want justice!

You can use the same tactics, technologies and computer systems that the CIA use and wipe each and every one of these crooks off the map and destroy their family cartels.

Just do it!
